

E-Bench: Your Legal Guide to Rights and Justice Empowering Women & Every Citizen Through AI-Powered Legal Intelligence

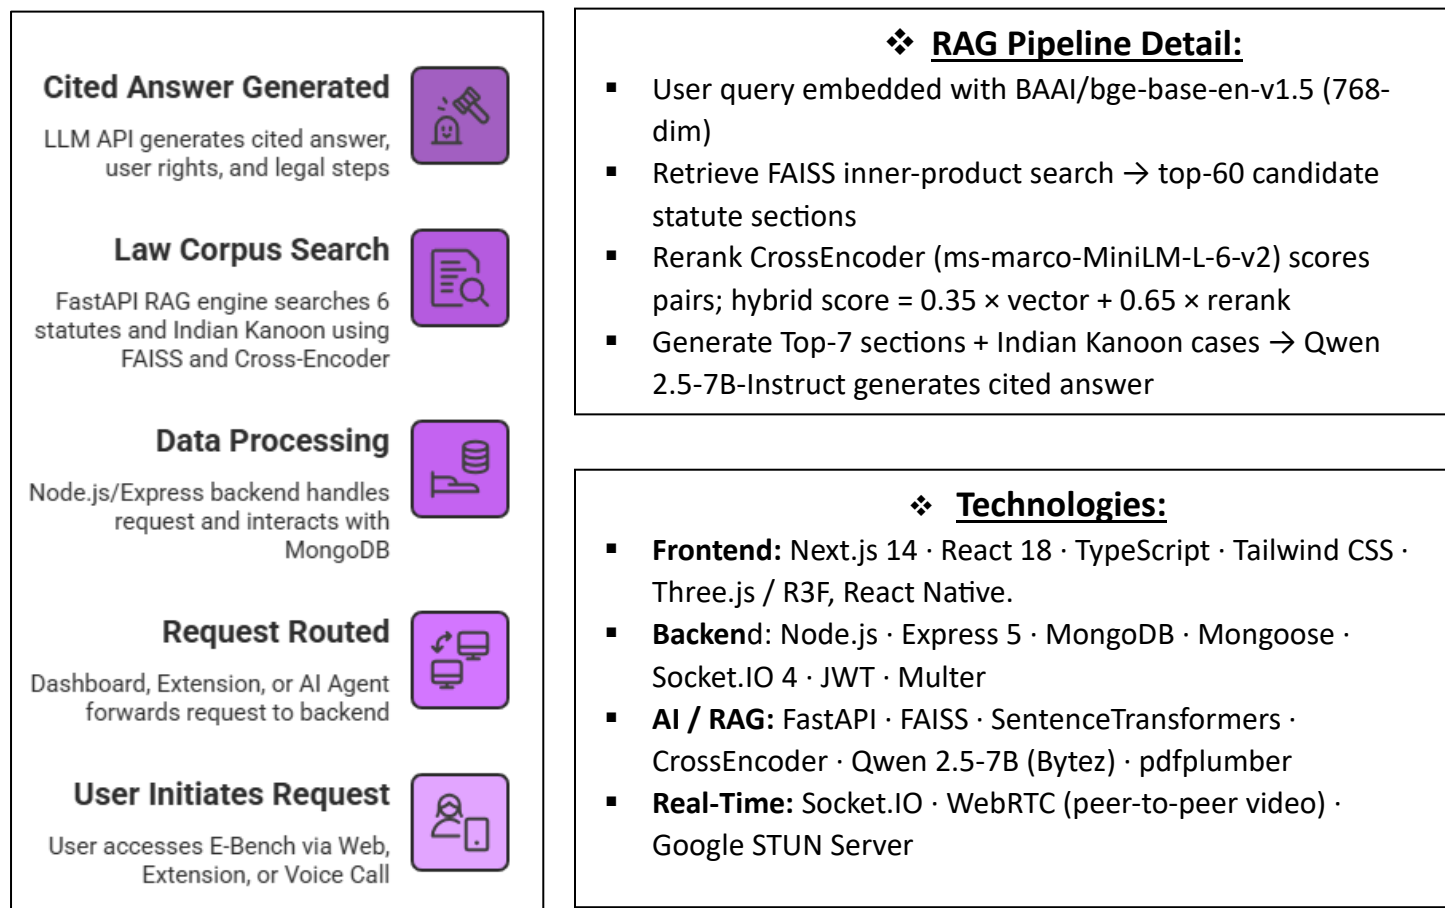

CONCEPT OVERVIEW:

Access to legal knowledge remains a critical barrier for millions of Indians — particularly women, students, workers, and rural communities who are unaware of their fundamental rights. Many women do not know they cannot be arrested after sunset without special circumstances, or that maternity law protects them from job termination during pregnancy. Existing legal platforms surface court records but remain inaccessible and non-actionable for non-lawyers. E-Bench is an AI-powered Digital Courthouse that bridges this gap — making legal knowledge accessible, understandable, and immediately actionable for every citizen.

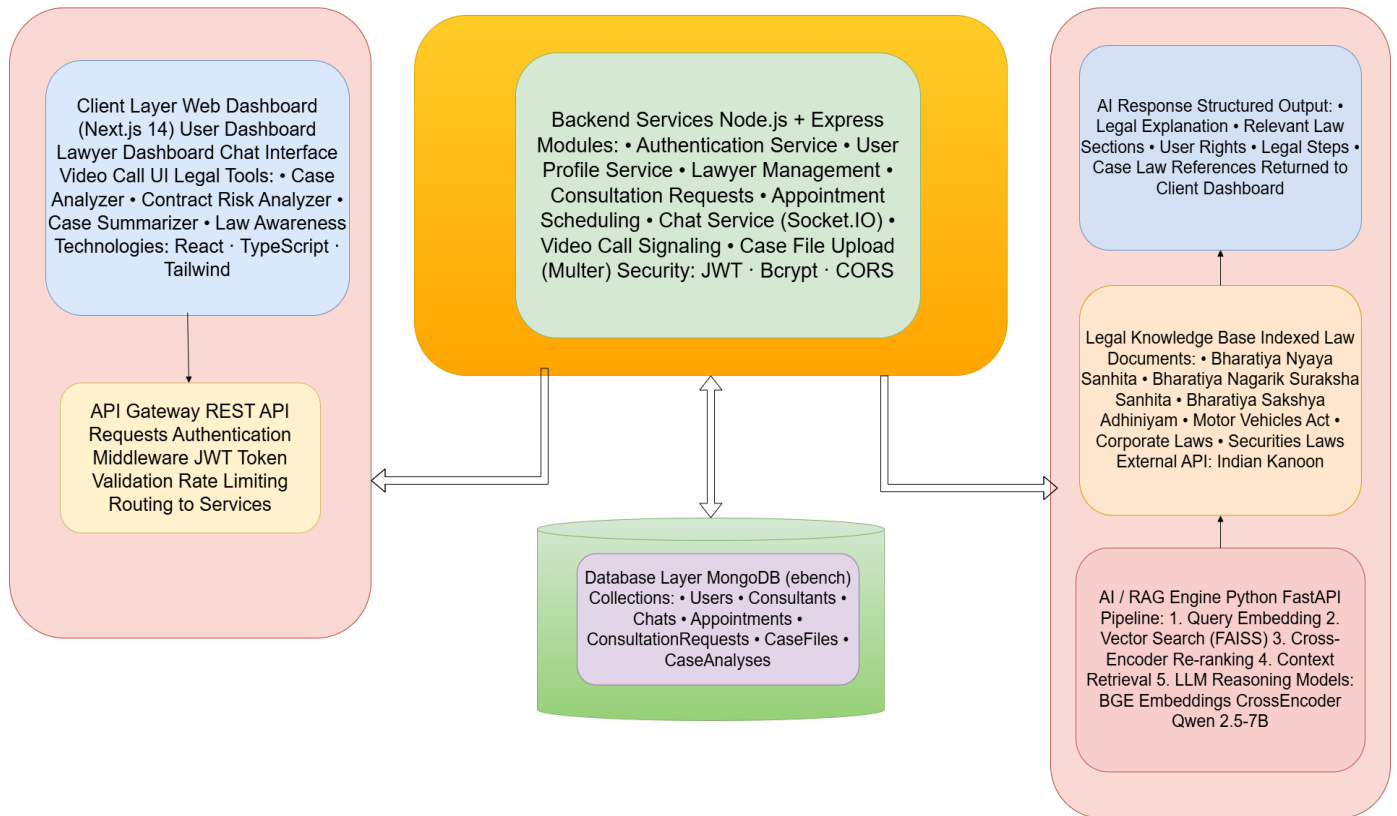

The platform delivers SIX core capabilities:

- ✓ **AI Legal Intelligence** — RAG Q&A with cited statutes
- ✓ **Document Analysis** — Case analyzer, risk scorer, FIR summarizer
- ✓ **Live Consultation** — WebRTC video + real-time chat
- ✓ **Legal Literacy** — Microlearning, forum, Know Your Rights
- ✓ **AI Calling Offline Agent** — Voice agent that calls helplines/registries on the user's behalf, logs outcomes
- ✓ **Browser Extension** — **T&C Clause Scanner** — Real-time highlighting of dangerous clauses on any webpage

IMPLEMENTATION STRATEGY:

Architecture Diagram:

❖ Datasets:

- Bharatiya Nyaya Sanhita (BNS) 2023
- Bharatiya Nagarik Suraksha Sanhita (BNSS) 2023
- Bharatiya Sakshya Adhiniyam (BSA) 2023
- Motor Vehicles Act
- Corporate Laws & Securities Laws
- Indian Kanoon API — live case law

❖ Impacts:

- **Legal Awareness for All**
Citizens learn their rights in plain language — no legal degree required. Women discover critical protections: arrest laws, maternity rights, and domestic violence statutes.
- **Breaking Barriers to Consultation**
AI-assisted pre-screening reduces lawyer consultation time. Real-time video and chat consultations reach users in remote areas without physical court access.
- **AI-Powered Legal Research**
Contract risk scoring, FIR summarization, and case analysis put professional-grade legal tools in the hands of ordinary citizens — free of charge.
- **Democratising Justice**
With 40+ million pending court cases in India, E-Bench reduces information asymmetry and empowers citizens to take informed legal action — faster, confidently, and independently.
